### Northern Machinery Sales Storage Shelter

Installed in the Fall of 2008, this 41' x 80' THA Container range shelter serves as a storage facility for Northern Machinery Sales of Sanford, Maine.

Three sides of the shelter were secured to 40' ISO shipping containers. The shelter was manufactured with a 17' x 12' clear opening on the front gable end for a customer supplied door.

The Rubb organization, with production facilities in the United States, Great Britain, and Norway, is recognized as a world leader in the design, development, and manufacture of relocatable structures.
