### Local York County Machine Shop Utilizes the Benefits of Rubb THA Shelters

TEM is a local Maine company that required another 2,000 square feet of storage capacity. With a set budget, strict property setbacks and the ability to gain access from the existing structure, a combination of (2) THA shelters (32.8' x 70' and 40' x 10' and one THX shelter provided everything needed to meet their requirements. All structures were erected on jersey barriers to achieve a higher height requirement.
