

PRESS RELEASE

Rubb Lands First Salt Shed in New York

Pelham, NY- Rubb, Inc. recently provided the Town of Pelham, NY with a custom salt shed for their Public Works Department.

Working with MVM Construction, Rubb, Inc. fabricated and installed the 30' x 65' BVR structure in less than 90 days. The building features two 20' x 20' sidewall openings to facilitate salt and sand loading operations.

The Rubb organization, with production facilities in the United States, Great Britain, and Norway, is recognized as a world leader in the design, development, and manufacturer of relocatable structures.
